

## Why a girls' school?

For many reasons - but if you're coming to New Zealand you should try something different!

With just girls you

- Learn in girl friendly ways
- Feel very comfortable and can express yourself at all times
- Get real support from strong female role models
- Have more fun – the senior common room was described by one of our German students as “really cool as it’s like being in your own bedroom except all your friends are there with you”.
- It’s more relaxed without boys and the girls are nicer to each other too
- Girls get more attention from their teachers and there are fewer interruptions
- Our girls have no problem meeting boys as we have many social occasions with our brother Scots College – including Balls, dance lessons, productions, sports matches, barbecues, dances etc.

- **Research and national results show that girls do best in girls' schools.**
