Course details

In 2019 of Year 12, students will be completing the Standard Level syllabus. They will also be starting their independent Internal Assessment (IA) investigation, worth 20% of the overall grade. The Higher Level syllabus will be covered in 2020 and revisits each topic covered at the Standard Level, but going into greater depth in each of these topics.

Course Information

- Students are issued with a textbook for the duration of the 2 year course
- Students are also issued with a Study Guide which will be charged to their accounts
- Students have access to SmartBacc to check on their understanding of each topic
- The teacher for 2019 is Ms Nicole Hoy

Homework expectations

Your daughter should be learning at home for at least 15 hours per week, across all subjects.

To achieve at a high level in IBD Chemistry, students are expected to complete regular homework and dedicated revision through the week. This might include:

- Completing unfinished classwork.
- Completing assigned exercises.
- Reviewing classwork to identify any gaps in understanding which should be raised with the teacher in the next lesson and/or in extra-help sessions.
- Honing skills and evaluating progress by completing and self-marking practice problems.
